

Overheads Policy

OVERHEADS – Guidance to Applicants

Applicants should be aware that FiMT may fund a proportion of the overhead costs associated with a project, taking into account the nature of the organisation applying. In assessing an application which includes funding for overheads, FiMT expects the applicant to be able to offer a detailed breakdown of what is included, and to be fully transparent in how these costs have been calculated. Applicants should also note that their application may be assessed alongside others with a different approach to overhead costing. FiMT reserves the right not to fund overhead costs where they cannot be reasonably justified or FiMT is not satisfied with the applicant's explanation.
